ARRS 2025 Annual Meeting SAVE THE DATE: April 27–May 1

Mark your calendars for ARRS 2025. Connect with experts and peers in the field, receive top education, and have one year of complementary on demand access to every session. Learn more at: <https://www2.arrs.org/am25/>

Accepting Submissions for NEW ARRS R3 Journal

ARRS is accepting manuscript submissions for R3. Consider contributing to the journal by submitting your own original articles. Author guidelines are available at <https://www.r3journal.org/>. Submitted articles should be educational in nature, clinically relevant, and immediately applicable to a typical radiology practice. Submissions will be assessed by the Editorial Board and suitable articles will go through peer review prior to a final decision. Learn more about this new journal at: <https://www.r3journal.org/>

ARRS Virtual Symposium: Deep Dive Into Shoulder Imaging on October 10

Participate live or on demand and gain insights into the latest advances in shoulder imaging and have access to session recordings and credit claiming for one year. Learn more and register at:

<https://arrs.org/ARRSLIVE/StandAlone/VDD24/ARRSLIVE/Education/Meetings/Symposia/VDD24/Home.aspx>

LAST CHANCE to Access the ARRS Breast Education Course, Everything, Everywhere, All at Once: Comprehensive Breast Imaging Longitudinal Course

This course offers nine, two-hour sessions in total. Sessions began in January 2024 and will continue until October 2024. All sessions are available to all participants on demand until October 16, 2025. The remaining course in the series is **Imaging Special Patient Populations on October 17**. Previous sessions include: Mammography, Breast MRI, Breast Ultrasound, Challenging Biopsies, and Multimodality Imaging of Molecular Subtypes of Breast Cancer. Earn up to 18 CME credits for the entire course. Learn more at: <HTTPS://ARRS.ORG/BREAST2024>

Open Access Global Education Course –

<WWW.ARRS.ORG/GLOBALEDUCATION>

ARRS in collaboration with the British Institute Radiology (BIR) is pleased to offer Screening Patient Pathways. This open access course reviews current practices for screening lung and female breast cancer in the UK and the USA. Speakers discuss common and comparative techniques and challenges of maintaining an effective screening program. Access this course and many others at: <WWW.ARRS.ORG/GLOBALEDUCATION>

Thank you for your global partnership.
