Dear friends and fellow radiologists,

With increasing adoption of technology, imaging expertise is now considered integral to cardiac care and a proper understanding of the nuances of cardiac imaging is becoming essential for cardiologists across the globe.

ARI Academy believes that every cardiologist and radiologist deserves the opportunity to hone their skills under the tutelage of international faculty, without the constraints of exorbitant costs or geographical limitations. The resounding success of our recent Mini Fellowships has inspired us to expand our suite of subspecialty radiology training programmes. The current offering of the Chest – cardiac and vascular radiology Mini Fellowship, has been tailored to suit cardiologists to enhance their expertise.

“The energy brought to the lectures is infectious. Filled with valuable clinical insights, making every moment worth it!”

Our Mini Fellowship programme is designed to provide in-depth training, delivered by a distinguished faculty of international experts. We have also ensured that they are accessible, offering competitive fees and flexible payment options. The programme includes both online lectures and then a in person meeting in Hyderabad for more interactive case based teaching.

As the future of Indian medicine, we urge you to embrace this opportunity to elevate your skills, broaden your horizons, and become a leader in your chosen field. More than just knowledge, ARI Academy also offers a supportive global community of peers and mentors who will guide you every step of the way.

Let us, together, usher in a new era of excellence in healthcare

With warm regards,

Dr Sreenivasa Raju Kalidindi

Director, ARI Academy
CEO & Medical Director, Apollo Radiology International

Prof Subhasis Chakraborty

Professor of Paediatric Radiology & Consultant Paediatric Radiologist Oxford
Course Director - Diagnostic Radiology

Dr Sanjeeva Kalva

Professor of Radiology at Harvard Medical School
Course Director - Interventional Radiology

Master your subspecialty.

ARI Academy's Mini Fellowship Programme offers a unique opportunity for radiologists, both residents and experienced professionals, to refine their skills in specific subspecialties. This program mirrors the structure and rigour of ACR fellowships but at a significantly lower

cost. Led by distinguished international faculty, the program provides personalized attention, exposure to state-of-the-art technology, and hands-on experience interpreting a wide range of pathologies.

3 Months Hybrid Learning Programme

Online

10 weekends with total of 30 hours of intense online learning and focused case reviews of more than 50 studies

Recordings of lectures and cases provided for review

Matches and exceeds the intensity and rigor of ACR Fellowships

Onsite (Live webcast is offered for those unable to travel for onsite)

4 days and a total of 10 hours of intense case-based reviews

Dedicated Interventional Teaching sessions

Individualised PACS accounts

Globally renowned faculty from USA/UK

Faculty from institutions like Harvard / Oxford / Md Anderson / UT Southwestern

Unique multi-disciplinary case discussions with clinical experts

Advanced Mini Fellowship in Abdominal Imaging and Intervention

CPD POINTS

48

ONLINE: 8 September - 10 November 2024

ONSITE: 21 - 24 November 2024

HIGHLIGHTS

- Unique one-day clinico-radiological event with specialist MDT case discussions
- Dedicated interventional sessions by global experts
- Special session on paediatric abdominal imaging and intervention
- Didactic lectures and mentored case reviews (over 100 cases)
- Delivered on individual workstations for hands on experience
- 30+ Hours of Online live lectures by international faculty from Harvard & Oxford
- Focus on Abdomen/pelvic oncology led by globally renowned experts
- In-depth insights into the latest advancements and best practices

FACULTY

Prof Mukesh Harisinghani

MBBS, MD
Professor of Radiology at Harvard Medical School | Director of Abdominal MRI and of the Clinical Discovery Program at the Massachusetts General Hospital in Boston

Dr Sanjeeva Kalva

MBBS, MD
Professor of Radiology at Harvard Medical School | Chief of Interventional Radiology in the Department of Radiology at Massachusetts General Hospital

Dr Anuradha Shenoy

MD, FSAB
Staff Radiologist at the Massachusetts General Hospital and Assistant Professor at the Harvard Medical School

Prof Subhasis Chakraborty

MBBS, MS, FRCS, FRCR
Professor of Paediatric Radiology & Consultant Paediatric Radiologist Oxford, UK | Former Chair of FRCR 2B Examination Board & Chair of RCR Learning, Royal College of Radiologists, London, UK

ACADEMY DIRECTOR

Dr Sreenivasa Raju Kalidindi

MBBS DNB FRCR
Director, ARI Academy
CEO & Medical Director, Apollo Radiology International

4:30pm IST	Rectal cancer imaging	Prof Raghu Vikram
5:30pm IST	Imaging of pancreatitis	Prof Rajesh Arumugam
6:30pm IST	Updates on pancreatic cancer imaging	Prof Raghu Vikram
10/11/24		
4:30pm IST	Approach to incidentally detected small renal echogenic	Prof Rajesh Arumugam
5:30pm IST	Not everything is tumour: Primer of post therapy imaging findings	Prof Raghu Vikram
6:30pm IST	Testicular and scrotal imaging	Prof Mukesh Harisinghani

WORDS FROM OUR ALUMNI

“ The online session and case discussions were an absolute delight! Can't wait for more. Truly enlightening experience.

“ The speakers and content were simply incredible! Engaging and informative throughout.

“ The professors were truly inspiring. Their expertise shines through in the simple and approachable teaching style. Brilliant approach to complex topics!

“ Dedication like this is commendable. The lectures are power-packed, filled with clinically relevant information. Outstanding delivery!

“ Yesterday's lectures were phenomenal, with a focus on practicality. Exemplary teaching offering invaluable insights.

“ Amazing cases presented with practical take-home messages, clearing many doubts with crisp talks and discussions.
