

Invitation to the Launch of the Lancet Commission on Diagnostics

Information from AOSR (As of 2021.9.17)

The Commission aims to address the disparities in access to diagnostics in low- and middle-income countries. All aspects of treatment and management of the patient – effective treatment and care, reduced harm and ensured safety – depend on having an accurate diagnosis. To obtain such diagnoses, robust and reliable Pathology and Laboratory Medicine (PALM) and Imaging services are critical elements of a fully functioning health system.

The Commission will launch on **October 7th, 2021, at 8 am EST / 1 pm UK / 2 pm CET.**, The findings will also be published on the same day. Multiple people from the same organization are able to attend the event, with no registration cap.

The registration link is:
