

AOSR Position Statement on Multidisciplinary Approach to Patient Care

Information from AOSR (As of 2022.8.22)

We are pleased to share with you our AOSR Position on the Multidisciplinary Approach to Patient Care (MDA). The statement is accompanied by the appendix of activities that have been/currently in progress and planned. **The documents are attached.**

[PDF \(AOSR Position on Multidisciplinary Approach July 14, 2022_updated\)](#)

[PDF \(Appendix to AOSR Position on Multidisciplinary Approach July 14, 2022_up...\)](#)

We hope that everyone will use this to encourage any form of the MDA, be it a formal team set up or just be more available to interactions with your non-radiology colleagues. We acknowledge there are many challenges in our various regions from resources to expertise and administration/national policies. The position has taken that into account. It is also available on the AOSR website (theaosr.org).
