WHY ATTEND?

- Radiographers /radiological technologists are essential and vital to the smooth running of radiology departments. They are needed to operate our complex equipment and produce diagnostic and optimal-quality images for interpretation.
- Effective communication, understanding and collaboration between radiologists and radiographers, are needed to work towards a common goal for safer and better patient outcomes.
- Find out or refresh your understanding of the various roles of the radiology team towards ensuring patient safety and high quality examinations.
- *Together Everyone Achieves More!*

WELCOME
