Survey on Human Medical Research Using Ionizing Radiation

The purpose of this survey is to understand current practices in regulations and education and training in human health research involving ionising radiation. Your support will contribute to development of international guidelines, which can be used by local legislative regulatory bodies and ethics review boards to guide decision-making. The completion time is no more than 5 minutes.

We thank you for taking the time to participate* and respond to all questions before 30 November 2024.

For any questions regarding the questionnaire, please feel free to contact Benjamin Puzantian at Benjamin.Puzantian@hc-sc.gc.ca

* Your participation is voluntary. Responses will be anonymized and held in strict confidence by ICRP.
