Thanks to the Asiasafe team and our ambassadors who have worked very hard over the past year on this project. We also thank the great support and encouragement of our president Professor Tomiyama.

This is reported in the official website <https://www.theaosr.org/safety/quality-standards-safety/5>

This is part of the AsaiSafe campaign to instill the culture and practice of MRI safety in our region. We are launching a series of activities to reach our safety goal. Please continue to be part of this mission of AOSR.

Thanks

KH Ng, Asiasafe Chair
