PET/MRI: Integrating the best of both modalities for cancer care

As part of your involvement in the **British Institute of Radiology World**

Partner Network you have free access to the following webinar:

[PET/MRI: Integrating the best of both modalities for cancer care](#)

Professor Vicky Goh

(54 minutes)

This is the Godfrey Hounsfield Lecture from the BIR Annual Congress, delivered in November 2021.

Professor Vicky Goh graduated from Cambridge and completed her sub-speciality training in Clinical Radiology in London, UK and Toronto, Canada. She is currently Head of Department, Cancer Imaging at the School of Biomedical Engineering & Imaging Sciences, King's College London and Honorary Consultant Radiologist at Guy's and St Thomas' Hospitals, London. Her translational research focusses on functional and advanced imaging in gastrointestinal, genitourinary, haematological and lung cancers. She co-leads the PET/MRI cancer programme. She is the Chair of the Royal College of Radiologists Academic Committee; Workforce Lead for the NIHR Imaging Group; European Society of Radiology

Education Committee, Undergraduate Subcommittee Chair; and European School of Radiology Steering Committee member. She is also Deputy Editor for Radiology and Associate Editor for Radiology: Imaging Cancer.

How to access

1. Click on the link above
2. Register and set up a password. (If you are already registered, log in with your email address and password).
3. Follow the instructions to access the article
4. Listen to the talk!

This resource will be available to you until 31 October 2022.

Our PET-CT Essentials 2022 video course is also available to your members at a special discounted price of £65.99 (usually £79.99). This is for radiologists, radiographers and other staff new to PET-CT or needing a refresher. Your code is PET22WPN
