We are holding an inaugural Joint International Congress on Emergency Radiology (JICER) on Feb 5–6, 2022. This is a global unique 24-hour non-stop virtual collaborative meeting on Emergency Radiology on the concept of “Follow the Sun”.

It will bring together Emergency Radiology Societies and Special Interest Groups across the globe with renowned speakers from all over the world sharing their experiences and knowledge.

The program is very robust covering all aspects of Emergency Radiology that will be of interest to all irrespective of where they practice.
